Dr. Jane Henney, Commissioner  
U.S. FDA  
5600 Fishers La.  
Rockville MD 20857

Dear Dr. Henney:

The overuse of antibiotics in animal feed concerns me greatly.  
It can have a frightening effect on treatment of people with  
infections.

I understand we are far behind other western countries in  
regulating antibiotic use in agriculture and feel that the  
limited FDA proposals should be enforced and strengthened.

Respectfully,

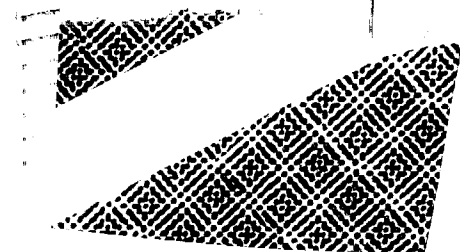

*Mary Goodwin*
